

Technical Skills

Languages	TypeScript, JavaScript, Python, C++, Rust
Frontend	React.js, Next.js, TailwindCSS
Backend	Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, WebSockets
Cloud & DevOps	AWS (S3, Lambda), GCP, Vercel, Git
Tools & Integrations	Socket.io, WebRTC, JWT, Stripe, Google APIs (Gemini AI, Gmail), RBAC

Experience

Full-stack Developer Intern	April 2025 – October 2025
Classy Endeavors	Remote
- Built and shipped 3+ production features using Next.js, React, and Express serving live users - Integrated Google Gemini AI and Gmail APIs, cutting manual workflows by an estimated 40% - Managed cloud infrastructure on GCP and AWS (S3, Lambda), supporting serverless backend scaling	
Backend Developer	2025
Pet-So-Much	Remote
- Built complete backend from scratch using Node.js and Express, covering 10+ API resource types across product, order, and user domains - Integrated Stripe payment gateway with webhook handling and server-side pagination, reducing payload size by ~70% - Implemented granular RBAC for admin panel: role creation, sub-admin onboarding, product/order management, and prescription generation with permission-gated access	
Frontend Developer Intern	October 2024 – November 2024
Indian Hempstore	Dehradun, India
- Revamped 5+ core website components using React.js, improving UI consistency and page load flow - Built a full-featured admin dashboard with Next.js, consolidating product and order management into a single interface	

Projects

Socially – Social Media Platform	socially.org.in
Next.js, PostgreSQL, Socket.io, Vercel, GCP	
- Built a full-stack social platform with profiles, posts, likes, comments, and follows; deployed and live at socially.org.in - Implemented real-time messaging via Socket.io on GCP, serving concurrent connections with <200ms latency - Designed relational schema with PostgreSQL and Prisma ORM, handling complex social graph queries efficiently	
Chat Application with Video Calling	January 2025
Node.js, React.js, MongoDB, WebRTC, Socket.io	
- Built real-time group chat with WebRTC video calling and Socket.io signaling, supporting multi-party sessions - Designed and implemented 8+ RESTful API endpoints for authentication, chat storage, and session management	

Achievements & Leadership

Technical Head	June 2025 – Present
UPES Computer Society of India	
Leading technical initiatives, mentoring 10+ team members, and organizing college-wide technical events	
Hackathon 4.0 Finalist	February 2025
UPES-CSA Hackathon – Top 5 of 180+ Teams	
- Built Smart Digital Coaching Platform with real-time chat, video calls, and JWT-based auth in 24 hours - Tech stack: React, TypeScript, Node.js, MongoDB, Socket.IO; reached finals among 180+ competing teams
